

HSP 2025 Full Schedule

March 27-29, College Park, MD

Table of contents

| | |
|----------------------------|----------|
| Thursday | 2 |
| Friday | 3 |
| Saturday | 4 |
| Demos | 5 |
| Posters | 6 |
| Poster Session 1 | 6 |
| Poster Session 2 | 11 |
| Poster Session 3 | 16 |
| Poster Session 4 | 20 |

Thursday

| Time | Title | Authors |
|-------------|---|--|
| 8-8:30 | Breakfast/Registration/Announcements | |
| 8:30-9 | Searching for structure in silence: Voice mismatches in VP ellipsis [abstract] | Benjamin Bruening, Anna Koppy, Bilge Palaz, Satoshi Tomioka, Rebecca Tollan |
| 9-9:30 | Gap prediction is not fully constrained by grammar: Hebrew Maze results [abstract] | Mandy Cartner, Aya Meltzer-Asscher |
| 9:30-10 | Illicit syntactic representations in garden-path reanalysis: More evidence from reflexives [abstract] | Yang Fan, E. Matthew Husband |
| 10-10:30 | Coffee break | |
| 10:30-11 | Revisiting the role of literacy on predictive processing during spoken language comprehension: Evidence from low-income Afro-Colombian speakers [abstract] | Jessica Vélez Avilés, Paola Dussias |
| 11-11:30 | Individual differences in cognitive ability and language experience are not modulating relative clause and verb bias effects in English: An extension of James et al. (2018) [abstract] | Van Rynald Liceralde, Michelle Perdomo, Ariel James, Tessa Warren, Doriana Lacitignola, Ansley Potter, Emily Phillips Galloway, Duane Watson |
| 11:30-12:15 | TITLE TBA [abstract] | Invited Speaker: Stefanie Kuchinsky |
| 12:15-1:30 | Lunch on your own | |
| 1:30-2 | Modeling latent processes during garden-pathing with data from a large benchmark study [abstract] | Dario Paape, Tal Linzen, Shravan Vasishth |
| 2-2:30 | Effects of Recency Bias on Transformers' Predictions of Reading Times [abstract] | Christian Clark, Byung-Doh Oh, William Schuler |
| 2:30-3 | Information Locality in the Processing of English Object Relative Clauses [abstract] | Hailin Hao, Weijie Xu, Michael Hahn, Richard Futrell |
| 3-3:30 | Coffee break | |
| 3:30-4:15 | TITLE TBA [abstract] | Invited Speaker: Andy Begel |
| 4:14-4:45 | Re-assessing the speech-to-eye lag in language comprehension [abstract] | Jéssica Gomes, João Veríssimo, Dan Parker, Sol Lago |
| 4:45-5:15 | Turkish register manipulation eliminates grammaticality asymmetry in attraction and challenges retrieval based accounts [abstract] | Utku Turk |
| 5:15-5:50 | Mentoring | |
| 5:50-7 | Poster session 1 | |

Friday

| Time | Title | Authors |
|-------------|---|--|
| 8-8:30 | Breakfast | |
| 8:30-9 | The Role of Language Model Entropy in Length and Frequency Effects During Reading [abstract] | Nikki Fackler, Peter Gordon |
| 9-9:30 | What Catches the Eye: Recognition Memory as a Function of Contrastive Accenting and Sentence Position in the Visual World Paradigm [abstract] | Bethany Clements, Scott Fraundorf, Laurel Brehm |
| 9:30-10 | Linguistic and oculomotor causes and consequences of word skipping: Insights from parafoveal N400 fixation-related potentials [abstract] | Sara Milligan, Elizabeth Schotter |
| 10-11:10 | Poster session 2 | |
| 11:15-11:45 | Rethinking Prosodic Phrasing [abstract] | Fernanda Ferreira, Julie Bannon, Madison Barker, Beverly Cotter, Casey Felton, Barbora Hlachova, Adrian Zhou |
| 11:45-12:15 | Nice to hear you again: Listeners maintain prosodic adaptation over 7 days [abstract] | Amelia Ostrow, Chigusa Kurumada |
| 12:15-1 | TITLE TBA [abstract] | Invited Speaker: Rain Bosworth |
| 1-2:15 | Poster session 3 | |
| 2:15-2:45 | 3-year-olds' use of situation models in online comprehension varies by language skill [abstract] | Amanda Rose Yuile, Cynthia Fisher, Arielle Borovsky |
| 2:45-3:15 | Children's sensitivity to informativeness in naming: basic-level vs. superordinate nouns [abstract] | June Choe, Anna Papafragou |
| 3:15-3:45 | Modeling extralinguistic cognitive constraints on children's sentence processing [abstract] | Ekaterina Khlystova, Timothy Hunter, Laurel Perkins |
| 3:45-4:15 | Coffee break | |
| 4:15-4:45 | (Un)likely words in context: A divergence between humans and large language models [abstract] | Eun-Kyoung Lee, Sathvik Nair, Naomi Feldman |
| 4:45-5:30 | Research as engagement and other insights from the Language Science Station at Planet Word [abstract] | Invited Speaker: Charlotte Vaughn |
| 7:00 | Planet Word | |

Saturday

| Time | Title | Authors |
|-----------|---|---|
| 8-8:30 | Breakfast | |
| 8:30-9 | Strategic use of adjectives as a marker of egocentric production [abstract] | Ella Bohlman, Jessica Montag |
| 9-9:30 | Speakers encode silent structures: evidence from complementizer priming in English [abstract] | Shota Momma, Norvin Richards, Victor Ferreira |
| 9:30-10 | From Single Words to Sentence Production: Shared Cortical Representations but Distinct Temporal Dynamics [abstract] | Adam Morgan, Orrin Devinsky, Werner Doyle, Patricia Dugan, Daniel Friedman, Adeen Flinker |
| 10-10:30 | Coffee Break | |
| 10:30-11 | Worth a thousand words: On comprehenders' visuospatial representation of transitive sentences [abstract] | Elsi Kaiser |
| 11-11:45 | TITLE TBA [abstract] | Invited Speaker: Philip Resnik |
| 11:45-1 | Lunch on your own (& Discussion: Science in Uncertain Times) | |
| 1-2:15 | Poster session 4 | |
| 2:15-2:45 | Processing Switch Reference Marking in Nungon (Papua New Guinea): Comprehension & Production Measures [abstract] | Adam Morgan, Jenny Yu, Ismael Dono, Lyn Ögate, Hannah Sarvasy |
| 2:45-3:15 | Building a Cross-Linguistic Typology of Sentence Planning from Case Alignment [abstract] | Caroline Andrews, Sebastian Sauppe, Roberto Zariquiey, Balthasar Bickel |
| 3:15-3:30 | Coffee Break | |
| 3:30-4 | Surprise! LM-generated Surprisal Values Cannot Fully Account for Human Parsers' Preferences in Relative Clause Comprehension [abstract] | Liliana Nentcheva, Sebastian Schuster, Andrea Santi |
| 4-4:30 | LLM-Based Surprisal Metrics as Potential Predictors of Cognitive and Mental Health [abstract] | Nadra Salman, Sarah Wilson, Sarah Newman-Norlund, Nicholas Riccardi, Amit Almor, Leonardo Bonilha, Dirk Den Ouden |
| 4:30-5 | Thanks/announcements | |

Demos

Demos will take place during poster sessions.

| Sessions | Title | Author(s) |
|----------|---|---|
| 1 & 3 | Promoting Syntax: Engaging and empowering teachers with linguistically-driven text [abstract] | Julie Van Dyke, Jack Dempsey |
| 1 & 3 | Getting the Word Out and the Data In: Considerations for Recruiting Hard-of-Hearing Children for fMRI Research [abstract] | Avery Vess, Carly Leannah, Rachael Rice, Clara Plutzer, James Booth |
| 1 & 3 | Conveying psycholinguistic concepts to general audiences: An interactive, problem-solving approach [abstract] | Lauren Salig, Erika Exton, Craig Thorburn, Alex Krauska |
| 1 & 3 | Developing a new consortium for outreach activities [abstract] | Juliana Gerard, Shauna McGill, Tandy Haughey, Victoria Singer, Victoria Simms, Raffaella Folli, Jocelyn Dautel |
| 2 & 4 | Fostering Inclusive Research: A Training Program for Community Engagement [abstract] | Jillian O'Malley, Hannah O'Connor, Kaila Cote, Heather Robinson, Holly Zaharchuk, Jessica Loya, Martina Villa, Derek Houston, Arielle Keller, Portia Washington |
| 2 & 4 | Meeting participants where they are: Enhancing recruitment, stimulus creation, and data collection outside of the lab in psycholinguistic research [abstract] | Kelly Marshall, Rebecca Bieber, Ian Phillips, Hector Galloza, Jacob Lefler, Kristina DeRoy Milvae, Nancy Solomon, Stefanie Kuchinsky, Douglas Brungart |
| 2 & 4 | Community-centered psycholinguistics: a holistic approach [abstract] | Emma Montilla, Amy Martinez, Sonia Patrizi, Christina Blomquist, Nicole Nguyen, Meg Cychosz |
| 2 & 4 | [abstract] | |

Posters

Poster Session 1

| Session.Tag | Title | Author(s) |
|-------------|---|--|
| 1.1 | Competition between passive-voice heuristics and active-voice knowledge: Webcam eye-tracking of Korean monolingual children's comprehension of suffixal passive construction [abstract] | Gyu-Ho Shin, Seongmin Mun |
| 1.2 | Out of sight, out of mind: The role of salience in second language processing and acquisition [abstract] | Georgia Knell, Saioa Cipitria, Ludovic De Cuypere, Alex Housen, Esli Struys |
| 1.3 | Investigating stages of morphosyntax acquisition using artificial language learning [abstract] | Calvin Engström, Heidi Getz |
| 1.4 | Learners attend to color when exposed to minimally different language varieties [abstract] | Sarah Phillips, Nicole Holliday |
| 1.5 | A Story a Day: Exposure to structured narratives with complex syntax enhances multilingual children's narrative macrostructure, but not complex syntax use [abstract] | Jelena Mirkovic, Athina Ntalli, Rinkle Crasta, Adhvikha Shetty, Akhila Pydah, Sonali Nag |
| 1.6 | Understanding SES variation in family lives using semi-structured interviews [abstract] | Megan Kanaby, Aryn Byrd, Yi Ting Huang |
| 1.7 | Age-Related Differences in Recognition Memory for Modified Words, Competitors, and Related Lures [abstract] | Jaden Zinn, Hossein Karimi |
| 1.8 | Eye tracking predictive processing and cognitive decline [abstract] | Victoria Cano-Sánchez, Itziar Laka, Alice Foucart, Mikel Santesteban |
| 1.9 | Do older adults inhibit falsely predicted words? Evidence from the Cross-Modal Lexical Priming paradigm [abstract] | Jina Kim, Si On Yoon, Jan Wessel, Kristi Hendrickson |
| 1.10 | Agreement attraction and cognitive load in the aging brain: eye-tracking evidence from Spanish [abstract] | Victoria Cano-Sánchez, Itziar Laka, Mikel Santesteban |
| 1.11 | No Age-Related Differences in Recognition Memory for Predictable Words [abstract] | Haomiao Li, Hossein Karimi |
| 1.12 | Cognitive Control Modulates Sentences Comprehension in Individuals with Aphasia [abstract] | Anna Krason, Erica Middleton, Matthew Ambrogio, Malathi Thothathiri |
| 1.13 | Observing Pitch Gestures Facilitates Delayed L2 Lexical Tone Categorization and Discrimination in Novel Words [abstract] | Derrick Nguyen, Sylvia E. Young, F. Sayako Earle, Laura M. Morett |
| 1.14 | Bilinguals' referential choice in intra-sentential code-switching [abstract] | Carla Contemori |
| 1.15 | Attach Me If You Can [abstract] | Marina Sokolova, Jess Ward, Ingrid Oyervides |

| | | |
|------|--|--|
| 1.16 | Monolingual and Heritage Speakers' Grammatical Processing: An ERP investigation of the Hebrew Accusative Marker [abstract] | Dana Plaut-Forckosh, David Anaki, Irina Sekerina, Natalia Meir |
| 1.17 | Development of Sensitivity to Prosodic Phrasal Boundaries in a Second Language [abstract] | Samuel Sui Lung Sze, Hyun Kyung Rachel Lee, Youngah Do, Yoonsang Song |
| 1.18 | Intrasentential Code-switches Enhance Recall in Bilingual Listeners [abstract] | Lauren Salig, Jorge Valdés Kroff, Jared Novick, L. Robert Slevc |
| 1.19 | When overgeneralizing a linguistic function: Second language Korean learners' knowledge about subject honorification as a politeness strategy [abstract] | Nayoung Kwon, Gyu-Ho Shin |
| 1.20 | Interface difficulties? L2 processing of syntactic-semantic and syntactic-pragmatic interfaces. [abstract] | Grace deMeurisse, Edith Kaan |
| 1.21 | Quantifier scope interpretation in L2: contributions of language proficiency, working memory and executive control [abstract] | Shaohua Fang, Shuyan Wang |
| 1.22 | Cognitive Control Adaptation in Code-Switching: An ERP Study [abstract] | Hannah Treadway, Melanie Curado, Alexandra Dabrowski, Claire Kuntz, Samantha Perez, Kirthana Sane, Olivia Shaw, Jorge Valdés Kroff, Souad Kheder, Edith Kaan |
| 1.23 | Acquisition of the blocking effect in L2 Chinese by L1 Japanese speakers [abstract] | Jun Lyu, Yunchuan Chen, Elsi Kaiser |
| 1.24 | Word Processing and Narrator Perspective: Differences Between Deaf and Hearing Bilinguals [abstract] | Emily C. Noyer, Matthew J. Traxler, Deborah M. Cates, David P. Corina |
| 1.25 | Do code-switching and sociolinguistic environment modulate the processing of ambiguous pronouns? Insights from Italian-English bilinguals [abstract] | Camilla Masullo, Beatrice Giustolisi |
| 1.26 | Interpretation of Anaphors in Verbal Ellipsis: Evidence from Heritage Turkish [abstract] | Esra Eldem Tunc, Zuzanna Fuchs, Elsi Kaiser |
| 1.27 | Plausibility and garden-paths: online aural cue use in L1, L2, and heritage speakers of Mandarin [abstract] | Vanessa Sheu, Elaine Francis |
| 1.28 | Slower lexical processing for bilinguals may involve different mechanisms depending on target language age of acquisition [abstract] | Ian Phillips, Rebecca E. Bieber, Gregory M. Ellis, Douglas S. Brungart |
| 1.29 | Exploring the Neurolinguistic Processing of Nonbinary Pronouns in First vs Second Languages [abstract] | Shane Hansen, Natasha Tokowicz |
| 1.30 | Word Predictability on Points of Code-switching [abstract] | Billy Gao, Ariel Chan, Yanting Li |

| | | |
|------|--|--|
| 1.31 | Higher syntactic complexity requires more listening effort for Spanish-English bilinguals [abstract] | Zuzanna Fuchs, John Muegge, Christine Shea |
| 1.32 | Heritage Speakers of Spanish pattern with Spanish-dominant speakers in facilitative processing of gender & number agreement [abstract] | Zuzanna Fuchs |
| 1.33 | Switching meanings and forms: An ERP study on multilingual language processing in Mandarin-English bilinguals [abstract] | Yuhui Huang, Anthony Yacovone, Jesse Snedeker |
| 1.34 | Observing Pitch Gestures Enhances Phonological and Semantic Processing of Newly-Learned L2 Mandarin Words [abstract] | Rylan Batten, Bashar Farran, Laura Morett |
| 1.35 | Chinese Existential Polarity Wh-words as a Window on L2 Interpretation [abstract] | Jih-ho Cha, Laurent Dekydtspotter |
| 1.36 | Online Processing and Offline Judgments of L2-English Article Misuse in Indefinite Contexts [abstract] | Amy Atilas |
| 1.37 | Flexibility in Bilingual Grammar: Judgments and Production of Noun-Adjective Sequences in Spanish-English Speakers [abstract] | Beverly Cotter, Alberto Falcon, Fernanda Ferreira |
| 1.38 | A behavioral and computational investigation of referential modification and memory for object features [abstract] | Caitlin Volante, Evgeniia Diachek, Deon T. Benton, Sarah Brown-Schmidt |
| 1.39 | Online Effort from a Minimalist Grammar Parser Improves RT Fit in RC Processing [abstract] | Aniello De Santo |
| 1.40 | Unifying memory retrieval and prediction in sentence comprehension: a cue-based computational model [abstract] | Elise Oltrogge, João Veríssimo, Umesh Patil, Sol Lago |
| 1.41 | Modeling agreement attraction effects in vector space [abstract] | Eva Neu, Maayan Keshev, Brian Dillon |
| 1.42 | Meaning distinctiveness as a key predictor of sentence memorability within a noisy representation account [abstract] | Thomas Clark, Greta Tuckute, Bryan Medina, Evelina Fedorenko |
| 1.43 | Correcting Language Model Word Probabilities Reveals a Greater Divergence Between Surprisal and Human Reading Times [abstract] | Byung-Doh Oh, William Schuler |
| 1.44 | Word Frequency Modulates the Effects of Model Size and Training Data Amount on Language Model Surprisal [abstract] | Byung-Doh Oh, William Schuler |
| 1.45 | Modeling morphological production with an algorithmically specified InFACT-R [abstract] | Jane Li, Grusha Prasad |
| 1.46 | Decomposing Semantic Decomposition Reveals Origin of Thematic Roles in LLMs [abstract] | Lucas Y. Li, Zander Lynch, Marten van Schijndel |

| | | |
|------|--|--|
| 1.47 | Language model surprisal underpredicts garden path effects even with limited syntactic parallelism [abstract] | William Timkey, Tal Linzen |
| 1.48 | A computational model for pseudocleft variation [abstract] | Hollen Foster-Grahler |
| 1.49 | Are Larger Language Models Better at Disambiguation? [abstract] | Ziyuan Cao, William Schuler |
| 1.50 | Enhancing parsing accuracy by fine-tuning language models with honorific awareness [abstract] | Nayoung Kwon, Seongmin Mun |
| 1.51 | Evaluating LLMs for abstract linguistic generalization using English parasitic gaps [abstract] | Satoru Ozaki, Shota Momma |
| 1.52 | Generalizing active gap-filling [abstract] | Tim Hunter, Miloš Stanojević, Edward P. Stabler |
| 1.53 | “Boy and Girl” or “Girl and Boy”: Dialect, Modality and Frequency Effects on the Production of Binomial Expressions [abstract] | Ha Leem Son, Eunkyung Yi |
| 1.54 | Dative Ordering Preferences in English: Productive Constraints, Item-Specific Experience & Frequency [abstract] | Emily Goodwin, Emily Morgan |
| 1.55 | Memory for assertions, questions and answers in unscripted conversation [abstract] | Sarah Brown-Schmidt, Natalie Andreoli, Susan Provenzano, Daphna Heller |
| 1.56 | The behavioral cost of building composite referents in reading comprehension [abstract] | Suhail Matar, Paloma Morcillo, Manuel Carreiras |
| 1.57 | The organization of memory for conversation [abstract] | Melissa Evans, Sean Polyn, Bethany Gardner, Sarah Brown-Schmidt |
| 1.58 | Eager interpretation of discourse-level ambiguities: New evidence for costly reanalysis [abstract] | John Duff, Kelsey Sasaki, Daniel Altshuler |
| 1.59 | Discourse expectations are sensitive to the Right Frontier Constraint [abstract] | Runyi Yao, Daniel Altshuler, E. Matthew Husband |
| 1.60 | What’s described vs. what’s uttered: Communication form modulates effects of typicality [abstract] | Muxuan He, Elsi Kaiser |
| 1.61 | Interpretation and Antecedent Biases of Null and Overt Pronouns in Turkish [abstract] | Esra Onal |
| 1.62 | The role of different linguistic and discourse-level factors in the processing of causal relations [abstract] | Artemy Razumnov, Natalia Slioussar, Svetlana Toldova |
| 1.63 | The timecourse of “under/connected” thematic relations in center-embedding illusions [abstract] | Nick Huang, Colin Phillips |

Poster Session 2

| Session.Tag | Title | Author(s) |
|-------------|--|---|
| 2.1 | SPACER: A Parallel Model of Speech Production And Comprehension of Error Repairs [abstract] | Jiaxuan Li, Shiva Upadhye, Rutvik Gandhasri, Richard Futrell |
| 2.2 | The Impact of Executive Function on the Relationship Between Age and Disfluency Production [abstract] | Kathryn Walters, Michele Diaz |
| 2.3 | Memory for the Discourse Context Following Disfluency [abstract] | Yu Zhou, Sarah Brown-Schmidt |
| 2.4 | Investigating sentence reading in young adults with and without university education: An eye-tracking study [abstract] | Kathy Conklin, Rüdiger Thul |
| 2.5 | Agreement is more than the sum of its parts: 'At-a-glance' reading in Urdu with EEG [abstract] | Hareem Khokhar, Zahin Hoque, Dustin Alfonso Chacón |
| 2.6 | Dissociating Predictive Sentence Processing from Acoustic Correlates in Naturalistic EEG Recordings from L1 and L2 Populations [abstract] | Junyuan Zhao, Jonathan Brennan |
| 2.7 | Lexical access during naturalistic listening in middle childhood and early adolescence [abstract] | Briony Waite, Tatyana Levari, Anthony Yacovone, Jesse Snedeker |
| 2.8 | Individual differences in 1/f slope impact metonymy processing and meaning adaptation: An EEG investigation of naturalistic discourse [abstract] | Guendalina Reul, Ina Bornkessel-Schlesewsky, Petra B. Schumacher |
| 2.9 | Processing of Multiple Long-Distance Dependencies in Russian: an EEG Study [abstract] | Jenna Baranov, Robert Kluender, Ellen Lau |
| 2.10 | Dissociating top-down preactivation and bottom-up priming in prediction updating [abstract] | Kayla Keyue Chen, Ningxin Hu, Zhengqin Liu, Wing-Yee Chow |
| 2.11 | From Local to Non-Local: The Role of Chinese Classifiers in Predictive Sentence Processing [abstract] | Zhenlin Chen, Leticia Pablos-Robles, Lisa Lai-Shen Cheng |
| 2.12 | Moral judgment mechanisms reflected in brainwaves: An ERP study [abstract] | Jian Meng, Xiaodong Xu, Peter Zhong, Savannah Chandler, Melanie Curado, Claire Kuntz, Olivia Shaw, Demi Zhang, Edith Kaan |
| 2.13 | Lexical processing differences between words and emoji: Evidence from neural oscillations [abstract] | Benjamin Weissman, Ryan Hubbard, Darren Tanner |
| 2.14 | ERP Responses to Syntactic Violations in Determiner Phrases [abstract] | Emily Graham, Kristen Fleckenstein, Naoko Witzel, Jeffrey Witzel |

| | | |
|------|--|---|
| 2.15 | YODA: English as SOV preserves N400 evidence for 2-stage negation processing [abstract] | Abdulaziz Alromihi, Jacob Burger, Azia Knox, Tarleton Hill, Arild Hestvik |
| 2.16 | Beta power reduction in response to subject-verb honorific agreement violations in Korean [abstract] | Joonwoo Kim, Nayoung Kwon |
| 2.17 | Conflict Resolution during Sentence Processing Elevates Proactive Cognitive Control. [abstract] | Madeleine Wade, Jared Novick, Albert Kim |
| 2.18 | Changing the narrative: ERP markers of building and updating situation models during deep naturalistic comprehension [abstract] | Thomas Hansen, Anthony Yacovone, Ivi Fung, Gina Kuperberg |
| 2.19 | Experimentally extracting implicit instruments [abstract] | Ashlyn Winship, Zander Lynch, John R. Starr, Yifan Wu, Lucas Li, Marten van Schijndel |
| 2.20 | Focus reveals how people (variably) update event representations to novel material [abstract] | John R. Starr, Marten van Schijndel |
| 2.21 | (A)telic Diversity: Evidence from a Novel Meaning Categorization Task [abstract] | Ugurcan Vurgun, Yue Ji, Anna Papafragou |
| 2.22 | There's something happening here: Lexical verb use underlies a fundamental distinction in the processing of spatial relations [abstract] | Zoe Ovans, Isabelle Weiss, John Trueswell, Barbara Landau |
| 2.23 | Event gist makes rapid contact with ongoing linguistic processing, even in the absence of visual preview [abstract] | Junyi Chen, John Trueswell |
| 2.24 | Agent and Patient Categories in English-Speaking Adults and Children and Homesigners [abstract] | Hanna-Sophia Shine, Irene Canudas-Grabolosa, Jesse Snedeker, Marie Coppola, Annemarie Kocab |
| 2.25 | Multitasking Events in English: Cross-task Conceptual Replications and Re-evaluations [abstract] | Lisa Levinson, Rohan Raju, Lucy Yu-Chuan Chiang, Sid Bhushan |
| 2.26 | Children use an agent's goals to determine event culmination [abstract] | Madison Paron, Anna Papafragou |
| 2.27 | Effects of event structure on referential choices: The Incompleteness Effect in Mandarin [abstract] | Yu-Tzu Chang, Bonnie D. Schwartz |
| 2.28 | The effect of orthographic neighborhood density on reading time in 9 languages [abstract] | James Michaelov, Roger Levy |
| 2.29 | Are working memory resources required for linguistic prediction during reading? [abstract] | Aine Ito |
| 2.30 | Domain-general working memory modulates semantic prediction in native speakers [abstract] | Zifei Wang, Chi Kin Hui, Aine Ito |
| 2.31 | Perspective effects on reading and memory [abstract] | Iuliia Fokina, Peter Gordon |

| | | |
|------|---|---|
| 2.32 | Cueing syntax during reading: Eye-movement evidence for benefits of linguistically-driven text formatting [abstract] | Jack Dempsey, Kiel Christianson, Julie Van Dyke |
| 2.33 | The role of experience with visual and linguistic factors on skipping behavior during reading naturalistic English texts in English L1 teen and adult readers [abstract] | Anastasia Stoops, Jessica Montag |
| 2.34 | The use of context in resolving syntactic ambiguities in Chinese reading [abstract] | Weilin Liu, Kevin Paterson |
| 2.35 | The Eye Movement, Reading, and Language Development (EMRLD) Corpus [abstract] | Jeffrey Witzel, Naoko Witzel |
| 2.36 | Grammatical Metaphor Increases AI-Animacy Perception in Online Sentence Processing [abstract] | Dawson Petersen, Nicholas Carney, Amit Almor |
| 2.37 | Testing the portability of outcomes across eye-tracking and self-paced reading reveals that traditional assumptions about spillover in relative clause sentences do not hold [abstract] | Van Rynald Licalde, Tessa Warren, Ariel James, Duane Watson |
| 2.38 | Are you asking me or telling me? Leveraging cross-linguistic phenomena to explore foundations of perspective taking in language comprehension [abstract] | Yingjia Wan, Yipu Wei, Craig Chambers |
| 2.39 | Hierarchical relations in memory retrieval: Evidence from a local anaphor in Turkish [abstract] | Özge Bakay, Faruk Akkuş, Brian Dillon |
| 2.40 | Information entropy facilitates lexical processing [abstract] | Hossein Karimi, Jaden Zinn, Haomiao Li |
| 2.41 | Case marking as a predictive cue in Korean (heritage) speakers' real-time comprehension [abstract] | Joonhee Kim, Theres Grüter |
| 2.42 | The Adaptation of Lexical Predictions to Speaker Reliability [abstract] | Jiayuan Yue, Wing Yee Chow |
| 2.43 | Updating predictions in the presence of a local competitor: A visual-world study [abstract] | Kayla Keyue Chen, Jingyi Gao, Wing-Yee Chow |
| 2.44 | Are the different variants of an optional structure processed differently? [abstract] | Mercedes Martinez Bruera, Matilde Calmejane, Carolina Gattei, Carlos J. Alvarez, Horacio A. Barber, Daniel Weingärtner, Andrea Listanti, Sol Lago |
| 2.45 | Listeners do not use Mandarin tone sandhi to make lexical predictions: evidence from printed-word visual world paradigm [abstract] | Yiling Huo, Effie Lu, Yiming Ning, Wing-Yee Chow |
| 2.46 | Novel word learning and repair through the lifespan [abstract] | Laurel Brehm, Yanlu Zhong, Montreal Benesch |

| | | |
|------|---|--|
| 2.47 | Individual difference in semantic working memory predicts verb-mediated anticipatory eye movement during sentence comprehension [abstract] | Yu Lu, Simon Fischer-Baum, Randi Martin |
| 2.48 | Distinct Processing Demands of Production and Comprehension Shape Memory for Language and Language Use [abstract] | Yu Zhou, Sarah Brown-Schmidt |
| 2.49 | Neural Processing of Emotional Prosody in Native and Non-native Chinese Speakers [abstract] | Cheng Xiao, Jiang Liu, Xuan Yang, Svetlana Shinkareva, Rutvik Desai |
| 2.50 | From Subitizing to Approximation: Numeral Processing Effects on Noun-Number Word Order [abstract] | Chunan Li, Monica L. Do |
| 2.53 | Children Reveal Offline but not Online Expectation-based Effects in Sentence Processing [abstract] | Michelle Perdomo, Van Rynald Liceralde, Emily Phillips Galloway, Duane Watson |
| 2.54 | Event apprehension and argument roles during sentence production: An individual differences approach to the role of linguistic knowledge [abstract] | Mackensie Blair, Kathleen Oppenheimer, Roshean Asmah, Samantha Weatherford, Yi Ting Huang, Amanda Owen Van Horne |
| 2.55 | Democratizing Prosodic Stress Recognition Across Genders and Neurotypes [abstract] | Samuel S. Sohn, Sten Knutsen, Karin Stromswold |
| 2.56 | Subject islands and the effect of transitivity on acceptability [abstract] | Hyejin Lee, Rebecca Tollan |
| 2.57 | Recognition memory for questions and their answers [abstract] | Melissa Evans, Natalie Andreoli, Daphna Heller, Sarah Brown-Schmidt |
| 2.58 | Different ways to encode information structure and how they interact: production and comprehension study on the Russian language [abstract] | Natalia Slioussar, Artem Novozhilov |
| 2.59 | Strategic memory allocation in the dependency locality effect in comprehension [abstract] | Weijie Xu, Hailin Hao, Richard Futrell |
| 2.60 | Effects of Surprisal and Contextual Entropy on L2 and Heritage Language Processing [abstract] | Hailin Hao, Zuzanna Fuchs |
| 2.61 | Modeling human inferences and reading behavior with an incremental, resource-rational model of noisy-channel language processing [abstract] | Thomas Clark, Jacob Vigly, Roger Levy, Edward Gibson |
| 2.62 | Distance to plausible alternatives predicts acceptability ratings in comparative illusion [abstract] | Yuhan Zhang, Erxiao Wang, Cory Shain |
| 2.63 | Language models (LMs) prefer ambiguous utterances following informative contexts [abstract] | Yanting Li, Jiaxuan Li, Shiva Upadhye, Noa Attali, Gregory Scontras |

Poster Session 3

| Session.Tag | Title | Author(s) |
|-------------|--|--|
| 3.1 | Complex syntax analysis in Alzheimer's Disease [abstract] | Stela Garbugio, Felipe Barbosa |
| 3.2 | Comprehension of Idiomatic Expressions in Low-Literacy Readers of Easy German: An Experimental Investigation [abstract] | Lena Wieland, Ingo Reich |
| 3.3 | Sentential meaning integration: Evidence from ERPs in neurotypical brains and Williams syndrome [abstract] | Clara Soberats Garau, Ruth de Diego Balaguer, Wolfram Hinzen |
| 3.4 | Understanding real-time syntactic parsing in typical development and developmental language disorder: A visual-world study [abstract] | Amanda Van Horne, Kuan-Jung Huang, Mackensie Blair, Megan Kanaby, Henry May, Kathleen Oppenheimer, Samuel Van Horne, Yi Ting Huang |
| 3.5 | The effects of frequency and predictability on the representation of multi-word phrases in English [abstract] | Zachary Houghton, Emily Morgan |
| 3.6 | Long-lag morphological priming depends on form overlap [abstract] | Stephen Politzer-Ahles, Münir Özturhan, Xuan Wang, Lila Church |
| 3.7 | No pseudo-morphological decomposition during lexical access, but actual morphological analysis in the lexicon: Meta-analytical evidence from seven new replicated masked priming experiments. [abstract] | Roberto Petrosino, Jon Sprouse, Diogo Almeida |
| 3.8 | Not All the Interpretations Work for Every Sentence: A Study on the Processing of Italian "Tutti" and "Ogni" [abstract] | Lavinia Salicchi, Yu-Yin Hsu |
| 3.9 | Ortho-phonological and semantic cues in gender assignment to novel words in Italian [abstract] | Valeria Galimberti, Beatrice Giustolisi, Caterina Donati, Francesca Foppolo |
| 3.10 | Animate-accusative agreement marking in Polish activates both semantic and grammatical animacy: eye-tracking evidence [abstract] | Zuzanna Fuchs, Anna Runova |
| 3.11 | Predictive Morphological Processing of Visual Words [abstract] | Stefan Pophristic, Alec Marantz |
| 3.12 | Prediction is a processing default in spoken language comprehension [abstract] | Margaret Kandel, Danielle Novak, Jesse Snedeker |
| 3.13 | From lab to neighborhood: enhancing child language research through community-based collaborations [abstract] | Katerina Drakoulaki, Mara Breen |
| 3.14 | Cortical representation of quantification: The role of the left anterior temporal lobe [abstract] | Nigel Flower |

| | | |
|------|--|--|
| 3.15 | Spatiotemporal signature of morphosyntactic planning in English sentence production [abstract] | Yi Wei, Ciaran Stone, L. Robert Slevc, Yasmeen Faroqi-Shah, Christian Brodbeck |
| 3.16 | Mandarin Chinese tone sandhi modulates sentence completions (to a limited extent) [abstract] | Yiling Huo, Effie Lu, Yiming Ning, Wing-Yee Chow |
| 3.17 | Are you paying attention? Investigating the extent of automatic speech adaptation [abstract] | Rachel Sabatello, Florian Jaeger |
| 3.18 | Is world knowledge activation exhaustive or selective during language comprehension? Evidence from bidirectional self-paced reading [abstract] | Chengjie Jiang, Walter van Heuven, Ruth Filik |
| 3.19 | The acquisition path of expressing social meaning in the morphosyntax of requests [abstract] | Andreas Trotzke, Laura Reimer |
| 3.20 | Context matters: History and informativity affect understanding of opaque references [abstract] | Veronica Boyce, Ben Prystawski, Alvin Tan, Mike Frank |
| 3.21 | To know what you might say, I will probably need to know the event type [abstract] | Anzi Wang, Carolyn Anderson, Grusha Prasad |
| 3.22 | Pragmatics mitigates the cost of negation: A first step toward investigating predictability effects in negation processing [abstract] | Neemias Souza Filho, Alon Hafri |
| 3.23 | Predicting ellipsis usage with a game-theoretic model informed by production data [abstract] | Robin Lemke |
| 3.24 | Impact of Structural and Affective Factors on Pragmatic Inferences [abstract] | Nadra Salman, Amit Almor |
| 3.25 | By or by-phrase on its own does not prime passives: Evidence from Korean [abstract] | Heeju Hwang, Gyuho Shin, Jeong-ah Shin |
| 3.26 | Animacy Effects on Production and Comprehension of English Object Relative Clauses [abstract] | Yue Li, Elaine Francis |
| 3.27 | Is there transfer of verb-bias learning from comprehension to production? [abstract] | Chenli Wang, Suyeon Hwang, Yi Lin, Cynthia Fisher |
| 3.28 | Memory and Priming in production of pronominal clitics in Spanish [abstract] | Sebastián Mancha, Ellen Lau, Colin Phillips |
| 3.29 | Word frequency drives message choices [abstract] | Arella Gussow, Jennifer Trueblood, Nazbanou Nozari |
| 3.30 | Prosodic fluency in productions of The Cat in the Hat predicts reading comprehension skill in 6-10-year-olds [abstract] | Mara Breen, Katerina Drakoulaki |
| 3.31 | Developing structural sensitivity in tonal alternations: Tone 3 sandhi production and directionality in L1 and L2 Mandarin [abstract] | Xiao Dong, Chien-Jer Lin |
| 3.32 | Wug[z], wup[s], and wuz[iz]: disambiguating stem and allomorph effects in speeded nonword inflection [abstract] | Jane Li, Sofia Rest, Colin Wilson |

| | | |
|------|--|---|
| 3.33 | On-line measures of typing fluency reveal psycholinguistic dynamics of sentence production [abstract] | Shiva Upadhye, Jeremy Yeaton, Erin Yi, Gregory Hickok |
| 3.34 | Reaching for the unknown: sentence planning under message uncertainty and expectation violation [abstract] | Thomas Morton, Amber Jiang, Victor Ferreira |
| 3.35 | Cascaded processing in language production is modality independent: Evidence from picture naming in American Sign Language [abstract] | Margaret Kandel, Jessica Carter, Annemarie Kocab |
| 3.36 | Processing Effects of Code-Switching [abstract] | Marina Sokolova |
| 3.37 | Turkish Adults “Know” the Prosody of Scrambled vs. Non-Scrambled Sentences [abstract] | M. Yarkin Ergin, Karin Stromswold |
| 3.38 | Perceptual Weightings of Prosodic Cues in Mandarin Prosodic Focus Processing [abstract] | Wenxi Fei, Yu-Yin Hsu |
| 3.39 | Perception and adaptation of speech prosody in autistic adolescents [abstract] | Chigusa Kurumada, Rachel Rivera, Christina Layton, Paul Allen, Loisa Bennetto |
| 3.40 | Leveraging Automatic Speech Recognition for Prosodic Stress Analysis [abstract] | Samuel S. Sohn, Sten Knutsen, Karin Stromswold |
| 3.41 | The Sound of Syntax: Prosodic Disambiguation for Syntactic Branching in a Tone Language [abstract] | Zeping Liu, Chien-Jer Lin |
| 3.42 | fNIRS Naturalistic Comprehension Approach Reveals Hypoactivation of Language Networks in Dyslexia [abstract] | Lauren Salig, Rachel Eggleston, Chi-Lin Yu, Xiaosu Hu, Ioulia Kovelman, Jonathan R. Brennan |
| 3.43 | Testing a functionalist-pragmatic account of constraints on subject pronoun interpretation. [abstract] | Liam Blything, Anna Theakston, Silke Brandt, Ben Ambridge |
| 3.44 | The processing of Chinese reflexives as plain anaphors and intensifiers [abstract] | Jun Lyu, Yuwei Zhang, Elsi Kaiser |
| 3.45 | The production of null and overt subject pronouns in Italian and Spanish: Effects of Semantic Role Predictability [abstract] | Carla Contemori, Elisa Di Domenico |
| 3.46 | Exposure to singular they increases the adoption of singular interpretations over plural [abstract] | James Kesan, Jennifer Arnold |
| 3.47 | The role of functional-pragmatic constraints on reflexive and non-reflexive object pronoun understanding: Evidence from a set of Preregistered studies. [abstract] | Liam Blything, Anna Theakston, Silke Brandt, Ben Ambridge |
| 3.48 | Do nominal modifiers affect bias towards topics? Pronoun interpretation in Mandarin. [abstract] | Xiaoyi Tang, Rebecca Tollan |
| 3.49 | Autistic traits and effects of context on processing object control in temporal adjuncts [abstract] | Alyssa Lowry, Jeffrey Green |
| 3.50 | Distance Modulates Influence of Inappropriate QPs on Pronoun Resolution in Spanish [abstract] | Alba Jorquera Jiménez de Aberásturi, Dave Kush |

| | | |
|------|--|--|
| 3.51 | Is pronoun comprehension driven by coarse or fine-grained discourse status categories? [abstract] | Jennifer E. Arnold |
| 3.52 | People adapt to Nonbinary Singular They through exposure [abstract] | Yining Ye, Jennifer Arnold |
| 3.53 | Perceiver-oriented reflexives in Turkish: semantics defeats syntax in reflexive resolution [abstract] | Metehan Oğuz, Elsi Kaiser |
| 3.54 | Priming Nonbinary They in a Storytelling context [abstract] | Gabrielle Garner, Jennifer Arnold |
| 3.55 | Exploring readers' spontaneous use of perspective inferencing in pronoun interpretation [abstract] | Tiana Simovic, Craig Chambers |
| 3.56 | Pretty Plumbers to the Rescue: Adjectives Aid in Gender Mismatch Recovery [abstract] | Cassie Davenport, Eszter Ronai |
| 3.57 | Who gets to start the race? Distinguished referents in pronominal ambiguity resolution [abstract] | Ruoqing Yao, Matthew Wagers |
| 3.58 | Transcranial Direct Current Stimulation of the Superior Parietal Cortex Modulates Reference Processing during Reading Comprehension [abstract] | Sarah Wilson, Samantha Langley, Kalil Warren, Dirk den Ouden, Amit Almor |
| 3.59 | The role of implicit causality, givenness, and newness in next-mention biases [abstract] | Dalia Cristerna Román, Juhani Järvikivi, Evangelia Daskalaki |
| 3.60 | Implicit gender bias in linguistic descriptions for expected events: The case of the 2024 United States presidential election [abstract] | Jacob Vigly, Veronica Boyce, Michaela Socolof, James Michaelov, Titus von der Malsburg, Roger Levy |
| 3.61 | The interplay between given and new status with implicit causality in dialogue reading [abstract] | Dalia Cristerna Román, Evangelia Daskalaki, Juhani Järvikivi |
| 3.62 | Variation in reflexive processing across constructions and individuals [abstract] | Sanghee Kim, Lucas Fagen, Ming Xiang |
| 3.63 | Presence and form of modification affect demonstrative use in Mandarin [abstract] | Gregory Antono, Daphna Heller |

Poster Session 4

| Session.Tag | Title | Author(s) |
|-------------|---|---|
| 4.1 | Illusory NPI licensing of both ‘ever’ and ‘any’ when linear position is controlled [abstract] | Mechelle Wu, Amman Khurana, Dave Kush |
| 4.2 | Biasing Context Facilitates the Processing of Aspectual Verbs in Mandarin Chinese [abstract] | Ye Ma, Brian Buccola, Shannon Cousins, Alan Beretta |
| 4.3 | Uniformity of verification strategies within and across individuals: Predicting performance with most-sentences from performance with more-sentences [abstract] | Malhaar Shah, Tyler Knowlton, Justin Halberda, Paul Pietroski, Jeffrey Lidz |
| 4.4 | Mandarin classifier informativity gates prediction updating in Maze Reading [abstract] | Runyi Yao, Yang Fan, E. Matthew Husband |
| 4.5 | Evidence for the contribution of semantic factors on speeded cloze production times [abstract] | Sathvik Nair, Cassandra Jacobs, Philip Resnik, Colin Phillips |
| 4.6 | Failing Alternatives Lower the Acceptability of Definite Descriptions [abstract] | Zander Lynch, Helena Aparicio |
| 4.7 | Interactions between cognitive accessibility and parsing strategies: processing cataphora in Korean [abstract] | Nayoung Kwon, So Young Lee |
| 4.8 | Camping Tigers, Hiking Dragons: Dangling Modifiers Do Not Add Processing Difficulty [abstract] | Adrian Zhou, Matthew Lowder, Fernanda Ferreira |
| 4.9 | On semantic illusions and the limits of attention: Fallibility in linguistic processing [abstract] | Haley Hsu, Elsi Kaiser |
| 4.10 | Sentence Repetition Test in Brazilian Sign Language [abstract] | Felipe Barbosa, Marco Antônio Teixeira Júnior |
| 4.11 | Pragmatics predicts phonetic reduction in signed narratives [abstract] | Onur Keleş, Kadir Gökgöz, Nazik Dinçtopal Deniz |
| 4.12 | How nouns and adjectives contribute to perception of gender stereotypes: Comparing humans, LLMs and AI image generators [abstract] | Elsi Kaiser, Ashley Adji |
| 4.13 | Assumptions based on names and professions: A comparison of form-based and meaning-based gender biases in pronoun resolution [abstract] | Elsi Kaiser, Sabrina Soto |
| 4.14 | The Influence of Accent Prestige on Lexical and Syntactic Alignment in Dialogue [abstract] | Hanna-Sophia Shine, Robert Slevc |
| 4.15 | Agreement processing across African American Language and Dominant American English: An ERP Study [abstract] | Zachary Maher, Janet Van Hell |
| 4.16 | Integrating talker and message in language processing: the influence of talker gender on sentence prediction [abstract] | Yun Feng, Subhekshya Shrestha, Ming Xiang, Yao Yao |

| | | |
|------|--|---|
| 4.17 | The Real-Time Processing of Pronouns in Weak and Weakest Crossovers [abstract] | Hyosik Kim, Myung-Kwan Park |
| 4.18 | Phrasal level features in agreement production: Evidence from multiple possessors [abstract] | Zheng Shen, Beth Chan |
| 4.19 | Does functional relationship between referents in a sentence affect encoding interference? [abstract] | Abeer Assy, Aya Meltzer-Asscher |
| 4.20 | The Toves of the Borogoves: Investigating RC Attachment Ambiguity with Nonce Words [abstract] | So Young Lee, Aniello De Santo |
| 4.21 | Control Issues: A Cross-Linguistic Perspective on Syntactic and Discourse Dependencies [abstract] | Juliana Gerard, Adina Camelia Bleotu |
| 4.22 | Phrase Superiority in RSVP and RPVP [abstract] | Simone Krogh, Liina Pykkänen |
| 4.23 | The search continues: Evidence of sustained antecedent search in picture NPs [abstract] | Wesley Orth, Keir Moulton |
| 4.24 | Intermediate island effects in clausal prolepsis: DP shells are just right [abstract] | Wesley Orth, Keir Moulton |
| 4.25 | Exploring the temporal dynamics and operational biases of noisy channel inferencing [abstract] | Jack Dempsey, Kiel Christianson |
| 4.26 | Chunking Constrains Prediction during Language Comprehension [abstract] | Jiajie Zou, Nai Ding |
| 4.27 | Now you see it... ? : Agreement sensitivity in 'at-a-glance' reading in Spanish [abstract] | Subhekshya Shrestha, Dustin Chacón |
| 4.28 | Rational inference does not predict agreement errors: Gender vs number attraction in Hebrew comprehension [abstract] | Mandy Cartner, Brian Dillon, Aya Meltzer-Asscher, Maayan Keshev |
| 4.29 | NPI licensing in Korean: Structural Complexity and Lexical Specific Effects [abstract] | So Young Lee, Jiwon Yun |
| 4.30 | What can ERPs tell us about reading time effects in filler-gap versus ellipsis sentences? [abstract] | Kate Stone, Aya Meltzer-Asscher |
| 4.31 | Scope interpretations of Mandarin embedded wh-questions: An eye-tracking study [abstract] | Yu-Yin Hsu, Deran Kong |
| 4.32 | Partial reanalysis: A large-scale replication testing plausibility and transitivity bias. [abstract] | Abeer Assy, Samuel Joseph Amouyal, Jonathan Berant, Aya Meltzer-Asscher |
| 4.33 | Can planned words trigger interference during real-time sentence production? [abstract] | Eun-Kyoung Lee, Elise Oltrogge, Sol Lago |
| 4.34 | Parsing strategies in French Hebrew and Italian: Avoid Gaps or Avoid Nodes? [abstract] | Francesca Foppolo, Lion Oks, Carlo Cecchetto, Caterina Donati |
| 4.35 | Neuronal entrainment to phrases with different structures [abstract] | Francesco Vespignani, Giulia Calignano, Alessia Raio |

| | | |
|------|--|--|
| 4.36 | Comparing Processing of Chinese Prenominal and Postnominal Relative Clauses: Evidence for the Distance-based Account [abstract] | Xinyuan Xia |
| 4.37 | The impact of TBI on the use of referential context in syntactic ambiguity resolution [abstract] | Patrick Sherlock, Melissa Duff, Sarah Brown-Schmidt |
| 4.38 | Mandarin Relative Clauses in the Maze: Expectations over Memory [abstract] | Lucy Yu-Chuan Chiang, Lisa Levinson |
| 4.39 | Reanalysis in Hebrew object-subject local ambiguities: Effects of verb type and prior reading times [abstract] | Lola Karsenti, Aya Meltzer-Asscher |
| 4.40 | Cue-based retrieval mechanism cannot capture illusions of plausibility [abstract] | Xingyu Shi, Colin Phillips |
| 4.41 | When gaps precede fillers: Processing temporarily ambiguous prenominal clauses in Mandarin Chinese [abstract] | Ruizhe Zhou, Peijia Su, Francesca Foppolo, Caterina Donati |
| 4.42 | What makes a good cleft in English? Is it syntax or semantics? [abstract] | Susan Wang, Moshe Poliak, Edward Gibson |
| 4.43 | Linguistic, but not visual, discourse context modulates syntactic parsing in the Maze [abstract] | Veronica Boyce, Roger Levy |
| 4.44 | Structural versus contextual biases in the resolution of temporal adjunct control [abstract] | Jeffrey Green |
| 4.45 | Effects of math structure and training on math and sentence processing: A cross-domain priming investigation [abstract] | Kristen Tooley, Paul Christian Dawkins, Christopher Soens |
| 4.46 | Colorless green emoji sleep furiously: Exploring structural priming between text sentences and emoji strings [abstract] | Benjamin Weissman, Jan Engelen, Neil Cohn |
| 4.47 | Investigating the source of the passive ellipsis clause penalty in VP ellipsis [abstract] | Suet-Ying Lam, Satoru Ozaki |
| 4.48 | Garden-path dead-ends contextualized [abstract] | Barbora Hlachova, Fernanda Ferreira |
| 4.49 | Error-based Syntactic Priming Effects in Neurologically Intact Middle-aged and Older Adults [abstract] | Parisa Osfoori, Chaleece Sandberg, Carries Jackson |
| 4.50 | Not Lost in the Garden Path: Large Language Models Navigate Their Way to Syntactic Knowledge [abstract] | Zeping Liu, Chien-Jer Charles Lin, Nazbanou Nozari |
| 4.51 | Examining the bridge/non-bridge verb distinction in Mandarin Chinese [abstract] | Jiayi Lu, Julie Anne Legate, Charles Yang |
| 4.52 | The size of 'it': Syntactic reactivation effects and accessibility of conceptual event representations during anaphora processing [abstract] | Emma Wing, Pasha Koval, Whitney Tabor |
| 4.53 | Subject islands are not caused by information structure clashes: cross-constructural evidence [abstract] | Matthew Kogan, Mandy Cartner, Nikolas Webster, Matt Wagers, Ivy Sichel |

| | | |
|------|---|--|
| 4.54 | Ambiguity Advantage Effect in Wh-Questions [abstract] | Joshua Lieberstein, Matthew Wagers |
| 4.55 | Number and gender in agreement processing: are they different? [abstract] | Daria Antropova, Natalia Slioussar, Elizaveta Galperina, Olga Kruchinina |
| 4.56 | A Direct Comparison of RC and PP Attachment Preferences [abstract] | Beverly Cotter, Fernanda Ferreira |
| 4.57 | Syntactic islands as a gradient phenomenon: Evidence from Vietnamese [abstract] | Linh Pham, Elsi Kaiser, Zuzanna Fuchs |
| 4.58 | Investigating island constraints in Vietnamese [abstract] | Shayne Sloggett, Quynh Chieu |
| 4.59 | The impact of verb subcategorization frequency on Standard Indonesian passives [abstract] | Bernard Amadeus Jaya Jap, Yu-Yin Hsu |
